crush the national democratic
movement of Arab and Iranian
people.

The Iranian Invaders Will a Never Pass Trough The Red Line

A POLITICAL STATEMENT ON THE IRANIAN INVASION

The treacherous regime of
Muscat invites its new masters
to crush the people revolution.

The Iranian invasion is part
the Imperialist plan to crush
the Arab national liberation
movement.

All the patriotic and
democratic Omani people are
called upon to defend the
motherland and defeat the
Iranian aggression.

We call upon all the nati-
onalist Arab states peace and
freedom loving parties and
organisation to denounce the
aggression and to support our
heroic people.

MASSSES OF OUR FIGHTING PEOPLE:

The middle area of the
southern region of Oman is
facing a wide military attack.
The Iranian forces, which have
been invited by the treacherous
rule of Muscat, and the merce-
nary forces led by British
officers are launching a massive
military campaign against the
armed revolution, its struggling
forces and its determined
masses in this region since the
20 December, 1973. Qabous
had officially asked the Shah
of Iran to send huge number
of the Iranian forces to crush
the revolution of the Omani
people; and the answer was this
Iranian campaign.

The treacheries of the
stooge regime of Qabous has
thus barefacedly revealed;
manifested in its readiness to
sacrifice the sovereignty of the
motherland, by its invitation to
the expansionist Iranian forces
to help it to subjugate and
oppress the heroic Omani
people in return for the regime's
hegemony and preservations of
its decaying rule.

Though few years of the
black rule have elapsed, it was
sufficient to reveal its true
nature. All the patriotic and

democratic Omani forces
refused to be identify with it,
the masses heroically and deter-
minedly stood against it and
gave hundreds of martyrs'
prisoners and exiles. The
patriotic tribes have refused
to raise arms and fight the
sons of the same motherland
in the southern region. Thus
the stooge regime found itself
isolated with no popular force
to support its decaying rule
to prevent its inevitable down-
fall.

The alternative was to throw
itself into the arms of the
Shah's regime, its new mas-
ters, to save it and to help in
oppressing the Omani people.

Qabous has consciously
and with self satisfaction put
Oman under the mercy of the
Iranian throne. The latter
spared no occasion to demon-
strate its expansionist claim to
our land, because of its vital
strategic position and its
natural wealth. The occupation
of the Omani Island: Abu Musa,
Tumb Major and Tumb Minor,
in 1971, was manifestation of
this claim.

Qabous regime has turned
Oman into an Anglo Iranian
protectorate to force the
Omani people to kneel to his
rule and to accept with
servility reaction and imperi-
alism.

Qabous and his British
masters did not hesitate to ask
the Iranian forces to fight the
heroic Omani people and its
armed revolution in the South-
ern region. This request came
after his failure in spite of all
the mercenaries, his British
officers and the Commando
units, which he brought in 1971,
to crush the revolution. And
after the failure of his cam-
paign of falsification and dis-
illusionment to divide the front
and to form tribal units to
make the people fight amongst
themselves.

The National Omani Forces are Urged to Defend the Motherland

The Iranian Greeds Uncovered After Oct. War

A Political Statement [Con't]

P.F.L.O.A.G. has revealed the treacherous role played by Qabous from the moment when he conceded to the Shah of Iran, in 1972, the island of Um-Alghanam and put the Omani control of Masandam heights and straits under the naval and aerial protection of Iran. P.F.L.O.A.G. has also warned that the lackey rule, in order to save its narrow interests and subjugate the people, will not hesitate from committing more national treasons against the Omani people and against the safety, dignity and sovereignty of the motherland. This has been proved more than once.

In the aftermath of the October war, P.F.L.O.A.G. made it clear that U.S. imperialism was shocked by the great heroic role played by the Arab armies. It seeks to nullify these military and political victories through imposing a surrender solution. Criminal plans are prepared aiming at crushing the Palestinian and the whole of the Arab national liberation movement.

P.F.L.O.A.G. has warned of the reactionary imperialist plot against the revolutionary forces in the southern parts of the Arabian Peninsula and their vanguard the progressive regime in Democratic Yemen and the armed revolution in Oman.

The aims of the Iranian campaign are: to occupy our Omani motherland and to crush its armed revolution. This campaign is only a part of an imperialist plan converging the whole of our region. It made use of the current situation of the Arab nation in order to execute its plans of liquidation.

OUR FIGHTING PEOPLE:

At this time, when Britain is expanding its aggression on our country, and Qabous is accepting to be used as a pawn in attaining the Shah's expansionist policy in the region of Oman, the Front's position on this matter is clear! We will not compromise nor co-exist with the puppet regime in Oman. The Front will confront this Iranian campaign, The

Omani masses will prove to the expansionist regime of the Shah that our people are able to defend their country and to turn Omani soil into a graveyard for the Iranian invaders and their lackies in Muscat.

The Front calls upon every Omani patriot, to raise arms in defence of the motherland and appeals to all the national democratic forces, classes and strata to consolidate. The national forces are urged to forget all their differences and rise to meet their historic responsibility in defence of the Motherland.

OUR ARAB MASSES:-

The Arab masses in Oman are facing the most critical situation in their modern history, likewise the Arab nation is facing a critical test, after waging the October war with distinguished heroism.

Imperialism is giving their client in Tehran the role of suppressing the heroic Omani revolution and the Omani masses who took up arms in 1965 in defence to their liberty and for attaining real independence. This dirty task was being executed with full cooperation of the treacherous regime in Muscat.

P.F.L.O.A.G. urged all the Arab national democratic forces and the nationalist Arab regimes, to stand beside our people, and offer all possible support to our people's struggle in resisting this Iranian invasion.

The Iranian expansionists are occupying a new Arab land, while the land of two other Arab countries and the whole of Palestine is still under Israeli occupation.

We urge all the Socialist countries and progressive organisation and countries in the world to oppose and denounce this invasion and support our people in their heroic struggle to resist the invaders.

P.F.L.O.A.G.

Minister of Information Speaks on Atrocious Iranian Aggression Against Presence of P.F.L.O.A.G.

The Minister said in his statement that such moves by the Iranian forces and their arrival in Omani territories constitutes an open violation of the national sovereignty of the Omani people and threatens their security as well as stability and turns dangers threatening not only the national movement in the area of Oman and the Gulf but also threat to the progressive regime in Democratic Yemen. He added that the fierce battles waged by the invading Iranian forces against the revolutionaries in the Southern Region of Oman recall to the mind the statement made by the puppet Shah of Iran which posed threats of direct interference in any area of the Arabian Gulf if danger is felt.

The Minister of Information appealed to all Arab and world progressive forces to stand by the side the progressive regime in Democratic Yemen and the national movement in the north of the Arabian Peninsula and the Gulf and condemn the Iranian interference which warns of a very serious situation.

Newsreel (con't)

SALLALAH:

Local M. Units in the Southern Region of Oman refused to take part with the Iranian in the military campaign launched by the Iranian throne against the masses of our brave people in the Southern Region of Oman.

These forces also refused to cooperate with the British forces and other mercenary forces which want to impose the influence of the colonialists and traitor on our homeland. The base of these units and the nationalist elements in them demand the expulsion of the invaders from Oman and to make the brave Omani people solve their problems by themselves. The People's Front appreciates the stand of all nationalist elements and calls upon all nationalist forces and elements to unite their efforts and forget all their differences in order to defend the people and homeland against the Iranian invaders.

AMMAN:

MORE POLICEMEN TRAINED IN AMMAN

Under the patronage of King Hussein of Jordan a celebration was held in the Jordanian Royal College to mark the graduation of policemen cadets from union of Arab Amirates.

King Hussein assured the willingness of his government to cooperate with other Arab countries. The cooperation which Jordan seeks is this kind of cooperation where Jordan furnishes the reactionary regimes with the know-how and cadets in the field of suppressive apparatuses.

The Central Command of the People's Front for the Liberation of Oman and the Arabian Gulf sent cable to the Heads of Progressive Arab and African States, Socialist States, international organisation and Democratic Organisation informing them about the Iranian military aggression. The cable pointed to the aggression and said it is a logical result of the Iranian expansionist policy and the Iranian role as a gendarme in the service of U.S. imperialism.

The Central Command of the People's Front for the Liberation of Oman and the Arabian Gulf urged all these states, international organisations and Democratic Organisation to denounce the aggression and do all they can to stop Iranian intervention.
